Electric loco E669.1 ČSD

Concentrated power:
The ČSD E669.1 series in 1:87 scale!

Electric loco E669.1 ČSD III

CAD drawing

The six-axle electric locomotives of the E 669.1 series have proven themselves in heavy freight transport for more than half a century. They were developed from the two prototypes of the E 660.0 class with the aim of eliminating the need for double traction on freight trains. Delivered by Škoda to the Czechoslovak State Railways (ČSD) in the early 1960s, a total of 150 units were built and used on the DC network in the north and east of the former Czechoslovakia. With the dissolution of Czechoslovakia in 1993, the entire series, now designated 181, was transferred to the new Czech Railways (ČD). Five units are still in service today as shunting locomotives under the aegis of ČD Cargo.

ČSD

Our prototype: Electric loco E669.112 of Depots Česká Třebová

TECHNICAL DATA

- Length over buffers: 216 mm
- Minimum recommended radius: 358 mm
- Era III
- PluX22 Interface NEM 658 PluX22
- NEM-Shaft and close coupling set
- Direction-dependent light change white/red

PIKO Electric loco E669.1 ČSD III

PIKO presents the E669.1 as a technically sophisticated model with state-of-the-art digital and sound equipment. Various light functions, a comprehensive sound package, and precise driving characteristics ensure realistic operation, while the numerous true-to-scale details make the locomotive a real collector's item.

NEW MOLD

2025

Electric loco E669.1 ČSD III

21020 DC

21022 DC, incl. PSD XP S and **PIKO TrainSound®** onboard

21023 AC, incl. PSD XP S and **PIKO TrainSound®** onboard

- Version with original rail scrapers and round buffers
- Highly detailed roof garden with fine ventilation grilles
- Metal scissor pantographs
- Flush-mounted windows with a view of the detailed installations in the engine room and driver's cabs
- Three-light headlight with red rear lights, changing with the direction of travel in analog mode and switchable in digital mode
- Digitally switchable lighting in the driver's cab, engine room and chassis area
- Additional digital lighting functions, such as high beams
- Digital sound versions with numerous vehicle-specific sounds
- Matching accessories and base plate with track replica for display in the showcase

MATCHING ACCESSORIES

- 56645 PIKO SmartDecoder XP PluX22
- Matching wagons in the PIKO range: e.g. Gondola (#54495), Boxcar (#24544), Beer car (#24520)
