## BAUANLEITUNG • INSTRUCTION • INSTRUCTION DE MONTAGE • BOUWBESCHRIJVING

**D** Mit dem Kauf dieses PIKO-Modells haben Sie ein paßgenaues und leicht zusammenbaubares Gebäudemodell erworben. Um möglichst viel Spaß beim Bauen zu haben, sollten Sie aber dennoch einiges beachten:

- Prüfen Sie den Bausatz auf Vollständigkeit. Sollte trotz sorgfältiger Prüfung durch PIKO ein Bauteil fehlen oder defekt sein, senden Sie diese Bauanleitung mit einem Vermerk zu dem fehlenden Einzelteil an uns. Sie erhalten dann kostenlos ein neues Teil. Bewahren Sie die Adresse auf.
- Die Einzelteile sind erst dann mit einem scharfen Messer vom Spritzling abzutrennen, wenn sie benötigt werden.
- Um ein sauberes Modell zu erhalten, benutzen Sie nur wenig handelsüblichen Plastikklebstoff.
- Entsorgen Sie die Plastikabfälle in die von den Städten und Gemeinden bereitgestellten Kunststoff-Sammelbehälter.

PIKO kennzeichnet seine Spritzlinge mit dem Recycling-Schriftstempel. Daraus ist zu erkennen, das PIKO seine Bauteile aus Polystyrol (PS) unter der Codierung 06 herstellt. Der Kunststoff wird nach DIN 6120 eingeordnet.
